

DEMO / FICTION — Not a real patient. Not clinical. Not medical advice.

Visit one-pager — questions for the room (fiction)

Bring to surgical / tumor-board style visits. Education prompts only.

Clarify

1. What is the best estimate of extent after MRI?
2. How does nuclear grade + receptors change local-control options?
3. What surveillance schedule would active monitoring require, if considered?

Trade-offs

4. For breast-conserving surgery $\pm$ radiation: what absolute risk deltas are cited for someone like me?
5. For mastectomy: reconstruction timing and recovery expectations?
6. Are there open trials I qualify for — and what would participation change?

Second opinion

7. Which records should travel with a second-opinion packet? (see checklist PDF)
